

Brief Profile

Shri Amit Bhola

Amit Bhola is a design engineer working in the Research & Development unit of Maruti Suzuki India's Gurgaon Facility. Having joined them in 2007 as a Graduate Engineer Trainee, Amit now heads a team of designers working on next generation gearboxes for cars and MUVs from Maruti Suzuki's stable. When not designing Gearboxes, Amit keeps himself indulged in things like Programming, creating algorithms, mathematical tools and even takes to designing logical puzzles for people of all ages. Amit is a graduate and a merit holder in Production Engineering from the prestigious Punjab Engineering College Chandigarh. He is an active member of Indian Value Engineering Society and Society of Automobile Engineers chapters, and has presented Technical Papers at their conferences.
